Subject: Revised Fee Schedule for Prosthetic and Orthotic Devices

Effective for dates of service on and after July 1, 2002, the Medical Assistance Administration (MAA) will use Medicare's 2002 fees for prosthetic and orthotic devices.

This fee schedule includes new procedure codes and the discontinuance of others. The discontinued codes are valid for dates of service through September 30, 2002.

Effective July 1, 2000, Prosthetic and Orthotics providers were required to be licensed through the Washington State Department of Health to bill for certain procedure codes. If you provide both prosthetics and orthotics, you will need to have a license for providing both types of devices. An indicator regarding the licensure requirement is found next to the procedure code in the fee schedule.

Attached are replacement pages G.1 – G.80 for MAA's Prosthetic and Orthotic Devices Billing Instructions, dated September 2001.

Bill MAA your usual and customary charge.

To obtain MAA's billing instructions and/or numbered memorandums electronically, go to MAA's website at <http://maa.dshs.wa.gov> (click on the Provider Publications/Fee Schedules link).

Fee Schedule

Prosthetics and Orthotics

Understanding the fee schedule

- In the P.A. (Prior Authorization) column on the fee schedule:
Y means requires prior authorization
Y* means requires prior authorization only for clients 17 years of age and older
- In the Licensure column on the fee schedule:
Y means licensure required
Y** means licensure required if prescribed for treatment of scoliosis
- **HCPCS codes** that do not have a Medicaid Maximum Allowance established are listed as **By Report (B.R.)** or **Noncovered (#)**.

State-unique procedure codes may also be listed as *By Report*. These procedure codes are used for unusual or unique circumstances, and/or when there is no other appropriate procedure code available. These *By Report* procedures are available in each section of the fee schedule.
- Please provide the following documentation for By Report procedures requiring prior approval:
 - (1) A detailed description of the item that will be provided.
 - (2) The procedure code that most closely describes the By Report item. If the item has been modified, note how that was done.
 - (3) If appropriate, the manufacturer's invoice, price list, a catalog with product description, and cost of itemized items.
- **Modifiers:**
 - RT = Right**
 - LT = Left**
 - RP = Replacement**

Note: If dispensing new bilateral/single item(s), use modifiers RT, LT, as appropriate. If dispensing replacement for a previous prosthetic(s) or orthotic(s), use modifier RP.
